Let the experts help you find your dream job

When it's time to find your dream job, the American Neurological Association Placement Service can help!

Our experienced recruitment professionals work with you to find career opportunities aligned with your interests, background, skills, work/life balance needs, and professional goals. And best of all, this service is provided at no cost or commitment from you.

How it works:

A placement service team member will work closely with you to understand your professional background, job search status, and career goals to help you develop your vision to take your next step.

Your dedicated placement service professional will search for ideal employment opportunities for you by researching and contacting employers on your behalf, with the goal of scheduling an interview.

You will be supported throughout the entire job search process from start to finish and includes CV writing or review, interviewing techniques, and negotiating job offers.

This service is provided to you for free. All fees are paid by the employer if hired through the Placement Service.

Ready for your next great career opportunity?
