

PRESIDENT'S MESSAGE

Dear ANA Members,

Just 16 days remain until the 150th Annual Meeting of the American Neurological Association – [ANA2025](#) – begins. The energy is building in anticipation of greeting the more than 1,000 attendees currently registered, the planned educational programming, the opportunity to connect in person, and to celebrate this milestone year

for the ANA.

Several special elements will commemorate the 150th Anniversary of the ANA and honor the 75th year of NINDS. Along with the meeting, the ANA website has launched a [Historical Timeline](#) to highlight benchmarks and people in the amazing story of neurology and neuroscience over the century and a half of the association. I hope you will enjoy taking a moment to reflect on how far we have come as a discipline and the impact the ANA members have and will continue exerting on the future of neurology and brain health in the years to come.

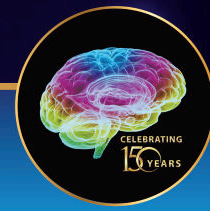

My personal thanks go to Dr. Allison Willis, Chair, and the members of the [Annual Meeting Programming \(AMP\) Committee](#) for their dedication and commitment to curating an outstanding lineup of programs for ANA2025. Plenary sessions, professional development workshops, interactive lunch workshops, special interest groups, the poster hall, and more await us. Thanks as well to the industry partners who will offer [satellite symposia](#) to enhance our meeting experience. On behalf of the members of the AMP Committee, Professional Development Workshops (PDW) Subcommittee, Interactive Lunch Workshops (ILW) Subcommittee, and the Local Arrangements Subcommittee as well as the AUPN career development committees, we hope by attending ANA2025 you gain knowledge, insight, and resources to utilize in your work and careers.

ANA2025
150th ANNUAL MEETING

#ANA2025 | 2025.myana.org

REGISTER TODAY!

SEPTEMBER 13–16, 2025
BALTIMORE MARRIOTT WATERFRONT

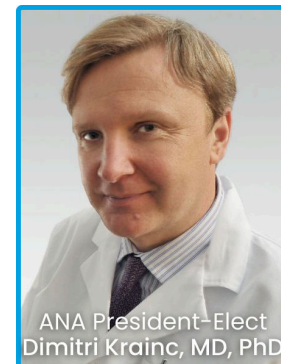

One of the best things about the ANA's Annual Meeting is the ability to connect with colleagues and friends as well as to forge new connections. The meeting provides ample time for interaction with others, and you are encouraged to start conversations that spark new ideas, relationships, and inspiration. Please join me at the [Opening Reception](#) and the [President's Reception](#) to engage with other meeting attendees. At the President's Reception in the lovely setting of National Aquarium we will celebrate the ANA's 150th Anniversary with a special gift to all who attend and a brief program reflecting on the ANA's history and hopes for its future. As well, we will celebrate with the National Institute of Neurological Disorders and Stroke (NINDS) as they mark their [75th Anniversary](#).

Recognition of the past, enjoying the present, and looking toward the future helps us ensure the ANA will be the home for academic neurology for years to come. One of the most important things we do is support the career development and research of our members. That is why I am so grateful for the continuing support of the Persyst Corporation and the funds they provide for the [ANA-Persyst IDEAS Professional Development Award](#).

This year's winner is Dr. Sharon Chiang of the University of California, San Francisco. We look forward to recognizing her at the [Derek Denny-Brown Young Neurological Scholar Symposium](#) on Monday, September 15. Please join me in congratulating Dr. Chiang on the incredible work and research she is doing in the field of epilepsy.

How quickly two years have flown by, and my service as President for the ANA is nearing the end. It has been an honor and a privilege to serve the members of the ANA and to work with the board and leadership on projects, programs, and initiatives that support our mission to advance science, careers, and education to improve neurologic health for all. I look forward to continuing the work with incoming ANA President, Dr. Dimitri Krainc, and support his presidency in my role as immediate past president. Thank you for the opportunity to serve and thank you for being part of the ANA.

M. Elizabeth Ross, MD, PhD, FANA
President, ANA

Nathan Cummings Professor and
Head, Laboratory of Neurogenetics and Development
Director, Center for Neurogenetics
Weill Cornell Medicine

To commemorate the special 150th anniversary of the ANA, we are releasing a series of exclusive interviews, the [latest featuring Dr. Ken Tyler](#), Editor-in-Chief of *Annals of Neurology*.

In this video, Dr. Tyler discusses his journey to becoming editor-in-chief of *Annals of Neurology*, the impact of COVID-19 and AI on neurology research, and the evolving role of the journal in a rapidly changing field. He highlights the importance of inclusivity, mentorship, and continued innovation within the ANA.

ANA2025 OFFERS COMPLIMENTARY CHILDCARE

If you plan to bring your family, the ANA offers reimbursement for onsite childcare services at ANA2025. For details and to take advantage of this meeting amenity, please [contact Nadine Goldberg, PhD, MS](#), the ANA's Chief Program Officer.

Gene Therapy

ANA HIGHLIGHTS GENE THERAPY COURSE

Gene therapy is transforming the field, and the [ANA Highlights Gene Therapy Course](#) gives you insider access to the latest breakthroughs. This four-part video series covers adeno-associated virus, antisense oligonucleotides, and CRISPR, capped with a panel discussion on real-world applications.

Chaired by Dr. M. Elizabeth Ross and Dr. Bryan Traynor, the program brings together top experts leading the charge in gene-based therapies. Free for ANA members and just \$49 for non-members, this course is a must-share with colleagues! Participants can also earn up to 1.5 *AMA PRA Category 1 Credits*[™].

To access the course, first [log in to your ANA account](#). Once logged in, click the link below to be taken directly to the course page.

ANNALS OF NEUROLOGY MEMBER HIGHLIGHTS

Gain inspiration and insight from articles by ANA members:

- [Proteomics and the Risk of Incident Embolic and Thrombotic Stroke](#)
- [Depression Polygenicity and Disease Activity and Disability Worsening in Multiple Sclerosis](#)
- [Adjunctive Thrombolytics After Successful Endovascular Reperfusion: A Systematic Review and Meta-Analysis of Randomized Controlled Trials](#)
- [Polygenic Resistance to Blood Pressure Treatment and Stroke Risk: Insights from the All of Us Research Program](#)

DID YOU KNOW? ANNALS OFFERS ANA FELLOWS ONE GUARANTEED EXTERNAL REVIEW PER YEAR!

[Annals of Neurology](#) is one of the world's most prestigious medical publications, featuring high-impact clinical and basic research in neurology and neuroscience. With an Impact Factor of 7.7, *Annals* has a long-standing reputation for excellence and is widely recognized by leaders in the field.

As an ANA Fellow, you are entitled to [one external review per year](#) for a manuscript submitted to *Annals*. If you are the first, senior, or corresponding author, you will have the option to request this guaranteed review during submission. Be sure your [membership is current](#) to take advantage of this exclusive benefit!

ANA CAREER CENTER: CONNECTING EMPLOYERS & JOB SEEKERS

Are you an [employer](#) recruiting for an open position? Are you an [individual seeking employment](#) to fit your skills, experience, and talent? The [ANA Career Center](#) is an outstanding resource for both employers and job seekers.

EMPLOYERS

- **EMAIL** your job directly to job seeking professionals
- **PLACE** your job in front of our highly qualified members
- **SEARCH** our resume database of qualified candidates
- **MANAGE** jobs and applicant activity right on our site
- **LIMIT** applicants only to those who are qualified
- **FILL** your jobs more quickly with great talent

JOB SEEKERS

- **POST** multiple resumes and cover letters or choose an anonymous career profile that leads employers to reach you
- **SEARCH** and apply to hundreds of fresh jobs on the spot with robust filters
- **SET UP** efficient job alerts to deliver the latest jobs right to your inbox
- **ASK** the experts advice, get resume writing tips, utilize career assessment test services, and more
