

ANA Membership Talking Points

As an ANA member, you are the Association's most effective advocate. When speaking with potential members, think about what you personally find valuable about the ANA, and share your experiences at the Annual Meeting or the benefits you've enjoyed. Your genuine enthusiasm is the strongest way to inspire colleagues to join.

Highlight the talking points below, which include links to share ANA's key benefits and resources:

- **[ANA Annual Meeting](#)** – a premier venue to learn and share the latest developments in academic neurology and neuroscience, with opportunities for meaningful interaction across all career levels and subspecialties.
- **[ANA Journals](#)** – receive access to *Annals of Neurology* and *Annals of Clinical & Translational Neurology*, featuring cutting-edge research and advances in the field.
- **Educational Programs** – on-demand CME through [interACTN](#), [OnDEC modules](#), [ANA Highlights](#) learning sessions, and ANA Webinars featuring live and recorded sessions from leaders in the field.
- **[ANA Investigates Podcast](#)** – engaging conversations from the world of academic neuroscience that educate, challenge, and entertain.
- **Opportunities for Trainees and Early-Career Members** – programs like [ANA Futures](#) and [ANA Ascend](#) help guide and develop the next generation of neurologists.
- **[Awards and Recognition](#)** – honor outstanding contributions at all career stages, including Poster Awards, ANA Rising Star Award, the Derek Denny-Brown Young Neurological Scholar Award, and the Distinguished Neurology Educator Award.
- **Career Support** – discover neurology opportunities for all career stages and receive personalized job alerts through the [ANA Career Center](#).
- **[Membership Value & Flexibility](#)** – multiple membership categories, overall affordability, and a streamlined path to become a Fellow based on your existing academic achievements.
- **Networking & Connections** – the relationships you build through ANA, fostering collaboration and mentorship across the field.
