

Meeting Year	Location	Session Type	Session Title	Date	Speaker's First Name	Speaker's Last Name	Speaker's Credentials	Speaker's Institution	Presentation Title
ANA2024	Orlando, FL	Special Interest Group (SIG) - Cross Cutting	Health Services and Health Equity Research: How Do We Engage and Recruit Diverse Populations in Neurological Research	Sunday, September 15, 2024	Niugama	Yechoor	MD, MSc	Mass General Brigham	Health Equity and Representation Science in Neurocritical Care
ANA2024	Orlando, FL	Special Interest Group (SIG) - Cross Cutting	Health Services and Health Equity Research: How Do We Engage and Recruit Diverse Populations in Neurological Research	Sunday, September 15, 2024	Richard	Benson	MD, PhD, FAAN	National Institute of Neurological Disorders and Stroke, NIH	Promoting Best Practices in Diversity Enrollment in Clinical Studies: An NIH Perspective
ANA2024	Orlando, FL	Special Interest Group (SIG) - Cross Cutting	Health Services and Health Equity Research: How Do We Engage and Recruit Diverse Populations in Neurological Research	Sunday, September 15, 2024	Ellen	Mowry	MD, MCR, FANA	Johns Hopkins University	Representation in Clinical Trials: Strategies for Study Design and Recruitment
ANA2024	Orlando, FL	Special Interest Group (SIG) - Cross Cutting	Neurodegeneration and Cell Death (NO CME)	Sunday, September 15, 2024	Ewa	Zulkowska	PhD	Washington University in St. Louis	Understanding and Treating Enteric Nervous System Disease in a CNS Neurodegenerative Disorder
ANA2024	Orlando, FL	Special Interest Group (SIG) - Cross Cutting	Neurodegeneration and Cell Death (NO CME)	Sunday, September 15, 2024	Sarah	Shahmoradian	PhD	University of Texas Southwestern Medical Center	Elucidating Amyloid Fibril Formation using Correlative Cryo-CLEM in situ
ANA2024	Orlando, FL	Special Interest Group (SIG) - Cross Cutting	Neurodegeneration and Cell Death (NO CME)	Sunday, September 15, 2024	Azad	Bonni	MD, PhD	Roche	Drug Development in Neurodegenerative Diseases: Challenges and Opportunities
ANA2024	Orlando, FL	Special Interest Group (SIG) - Cross Cutting	Neurodegeneration and Cell Death (NO CME)	Sunday, September 15, 2024	Alain	Ndayisaba	MD	Harvard Medical School	Integrating Skin Seeded-amplification Assays into a Personalized Stem-cell Paradigm for Synucleinopathy
ANA2024	Orlando, FL	Special Interest Group (SIG) - Cross Cutting	Neurodegeneration and Cell Death (NO CME)	Sunday, September 15, 2024	Brian	Wainger	MD, PhD	Massachusetts General Hospital	New Mechanisms of Neuron-Autonomous Neuroinflammation
ANA2024	Orlando, FL	Special Interest Group (SIG) - Cross Cutting	Neurodevelopment: The Neurovascular Continuum	Sunday, September 15, 2024	Lori	Jordan	MD, PhD	Vanderbilt University	The Neurovascular Continuum: Pediatric Stroke
ANA2024	Orlando, FL	Special Interest Group (SIG) - Cross Cutting	Neurodevelopment: The Neurovascular Continuum	Sunday, September 15, 2024	Louise	McCullough	MD, PhD, FANA	University of Texas Health Science Center at Houston	The Neurovascular Continuum: Vulnerabilities in Women and in Aging
ANA2024	Orlando, FL	Special Interest Group (SIG) - Cross Cutting	Neurogenetics and Gene Therapy: Forget The Mouse: The Future of Pre-Clinical Trials in Neurogenetic Disease	Sunday, September 15, 2024	Anne	Charamello	PhD	George Washington University School of Medicine	Fibroblast Models MELAS/LHON Plus to Test Novel Pharmaco-Epigenomic Drugs
ANA2024	Orlando, FL	Special Interest Group (SIG) - Cross Cutting	Neurogenetics and Gene Therapy: Forget The Mouse: The Future of Pre-Clinical Trials in Neurogenetic Disease	Sunday, September 15, 2024	Lori	Iscm	MD, PhD, FANA	University of Michigan Medical School	A Transgenic Rabbit Model of Pediatric Epilepsy and SUDEP
ANA2024	Orlando, FL	Special Interest Group (SIG) - Cross Cutting	Neurogenetics and Gene Therapy: Forget The Mouse: The Future of Pre-Clinical Trials in Neurogenetic Disease	Sunday, September 15, 2024	Evangelos	Kiskinis	PhD	Northwestern University	Refining TDP-43 Dependent Disease Mechanisms and Therapeutic Approaches in ALS Using Human iPSC Models
ANA2024	Orlando, FL	Special Interest Group (SIG) - Cross Cutting	Neuroinflammation and Neuroinfection: Genetic Underpinnings to Neuroinflammatory and Neuroinfectious Diseases	Sunday, September 15, 2024	Jennifer	Orthmann-Murphy	MD, PhD	University of Pennsylvania	Defining the Path to Disease Modifying Therapy for Genetic Leukoencephalopathy
ANA2024	Orlando, FL	Special Interest Group (SIG) - Cross Cutting	Neuroinflammation and Neuroinfection: Genetic Underpinnings to Neuroinflammatory and Neuroinfectious Diseases	Sunday, September 15, 2024	Roberta	La Plana	MD, PhD	The Neuro Montreal Neurological Institute-Hospital	The White Matter Rounds Experience: An International Network to Accelerate the Diagnosis of Adult Subjects with Atypical White Matter Diseases
ANA2024	Orlando, FL	Special Interest Group (SIG) - Cross Cutting	Neuroinflammation and Neuroinfection: Genetic Underpinnings to Neuroinflammatory and Neuroinfectious Diseases	Sunday, September 15, 2024	Fairaz	Safari	MD, PhD	National Institutes of Health	Neurological Manifestations of Errors of Immunity
ANA2024	Orlando, FL	Special Interest Group (SIG) - Cross Cutting	Neurorecovery and Neuroplasticity: Neurostimulation to Improve Recovery After Brain Injury	Sunday, September 15, 2024	Wayne	Feng	MD, MS, FANA	Duke University	Neurostimulation Tools for Post-Stroke Motor Recovery - Prime Time
ANA2024	Orlando, FL	Special Interest Group (SIG) - Cross Cutting	Neurorecovery and Neuroplasticity: Neurostimulation to Improve Recovery After Brain Injury	Sunday, September 15, 2024	Karunesh	Ganguly	MD, PhD, FANA	University of California, San Francisco	Modulating Neural Population Dynamics to Improve Motor Recovery
ANA2024	Orlando, FL	Special Interest Group (SIG) - Cross Cutting	Neurorecovery and Neuroplasticity: Neurostimulation to Improve Recovery After Brain Injury	Sunday, September 15, 2024	Peter	Tuhtelaub	MD, PhD	Georgetown University Medical Center	Understanding Mechanisms of Aphasia Recovery to Improve Brain Stimulation Treatments
ANA2024	Orlando, FL	Special Interest Group (SIG)	Autoimmune Neurology & MS: Updates and Advances in the Immunobiology and Approaches in Autoimmune Encephalitis	Monday, September 16, 2024	Grace	Yoonheekim	MD, MSc	Emory University/Children's Healthcare of Atlanta	Treatment Approaches in Pediatric Autoimmune Encephalitis
ANA2024	Orlando, FL	Special Interest Group (SIG)	Autoimmune Neurology & MS: Updates and Advances in the Immunobiology and Approaches in Autoimmune Encephalitis	Monday, September 16, 2024	Jenny	Lincolia	MD, PhD	University of Pittsburgh	The Role of Infectious Triggers in Autoimmune Encephalitis
ANA2024	Orlando, FL	Special Interest Group (SIG)	Behavioral Neurology and Dementia: Emerging Diagnostic and Therapeutic Biomarkers in Neurodegeneration	Monday, September 16, 2024	Roger	Abin	MD, FANA	University of Michigan	Cholinergic System Changes and Cognition in Parkinson Disease
ANA2024	Orlando, FL	Special Interest Group (SIG)	Behavioral Neurology and Dementia: Emerging Diagnostic and Therapeutic Biomarkers in Neurodegeneration	Monday, September 16, 2024	Michelle	Elvirich	MD	Leahm School of Medicine at Mount Sinai	Manipulation of Microglial Genes in Alzheimer's Disease: When and in Which Direction?
ANA2024	Orlando, FL	Special Interest Group (SIG)	Behavioral Neurology and Dementia: Emerging Diagnostic and Therapeutic Biomarkers in Neurodegeneration	Monday, September 16, 2024	Alicia	Algecras-Schmich	PhD, DABCC, FACB	Mayo Clinic, Rochester	Update on Performance of Blood-Based Biomarkers in AD
ANA2024	Orlando, FL	Special Interest Group (SIG)	Epileptogenesis: From Basic Mechanisms to Clinical Practice	Monday, September 16, 2024	Jadwep	Kapur	MD, MS, PhD, FANA	University of Virginia	Mechanisms of Epileptogenesis in Status Epilepticus
ANA2024	Orlando, FL	Special Interest Group (SIG)	Epileptogenesis: From Basic Mechanisms to Clinical Practice	Monday, September 16, 2024	Martina	Betin	MD, MPA, FANA	University of Alabama at Birmingham	Tuberous Sclerosis Complex as a Human Model of Epileptogenesis
ANA2024	Orlando, FL	Special Interest Group (SIG)	Epileptogenesis: From Basic Mechanisms to Clinical Practice	Monday, September 16, 2024	James	Gugger	MD, PharmD	University on Rochester	Traumatic Brain Injury as a Human Model of Epileptogenesis
ANA2024	Orlando, FL	Special Interest Group (SIG)	Global Neurology: Hot Topics in Global Neurology	Monday, September 16, 2024	Aristea	Galanopoulou	MD, PhD, FANA	Albert Einstein College of Medicine	Neuroscience Research Capacity Building in LMICs
ANA2024	Orlando, FL	Special Interest Group (SIG)	Global Neurology: Hot Topics in Global Neurology	Monday, September 16, 2024	Douglas	Postels	MD, MS	Children's National Hospital	Cerebral Malaria Updates: Vaccines, Climate Change, and Beyond
ANA2024	Orlando, FL	Special Interest Group (SIG)	Global Neurology: Hot Topics in Global Neurology	Monday, September 16, 2024	Agnieszka	Kielian	MD	Boston Children's Hospital	Neurologic Care in Conflict Zones
ANA2024	Orlando, FL	Special Interest Group (SIG)	Neurocritical Care and TBI: Beyond the ICU: Impacting Long-Term Outcomes Following Neurological Critical Illness and TBI	Monday, September 16, 2024	Angelita	Colantonio	PhD, FCAHS, FACRM	University of Toronto	Long-Term Outcomes After TBI with Special Interest in Women and Marginalized Groups
ANA2024	Orlando, FL	Special Interest Group (SIG)	Neurocritical Care and TBI: Beyond the ICU: Impacting Long-Term Outcomes Following Neurological Critical Illness and TBI	Monday, September 16, 2024	Jonathan	Rosand	MD, MSa, FANA	Massachusetts General Hospital	Beyond the ICU: Impacting Long-Term Outcomes Following Neurological Critical Illness and TBI
ANA2024	Orlando, FL	Special Interest Group (SIG)	Neuromuscular Disease	Monday, September 16, 2024	Jimsy A.	Andrews	MD, MSc, FAAN, FANA	Columbia University Irving Medical Center	What's on the Horizon for ALS
ANA2024	Orlando, FL	Special Interest Group (SIG)	Neuromuscular Disease	Monday, September 16, 2024	Thomas	Lloyd	MD, PhD, FANA	Baylor College of Medicine	Advances in Inclusion Body Myositis
ANA2024	Orlando, FL	Special Interest Group (SIG)	Neuromuscular Disease	Monday, September 16, 2024	Carsten	Bornemann	MD, FANA	National Institutes of Health	Learnings from Gene Therapy in Pediatric Neuromuscular Disorders
ANA2024	Orlando, FL	Special Interest Group (SIG)	Cerebrovascular Disease	Tuesday, September 17, 2024	Tracy	Madsen	MD, PhD, FAHA, FACEP	Brown University	The Impact of Sex and Gender on Stroke Outcomes
ANA2024	Orlando, FL	Special Interest Group (SIG)	Cerebrovascular Disease	Tuesday, September 17, 2024	Kristin	Gulliams	MD, MSCI	Washington University, St. Louis	Advances in Pediatric Ischemic Stroke
ANA2024	Orlando, FL	Special Interest Group (SIG)	Cerebrovascular Disease	Tuesday, September 17, 2024	Sandeep	Khot	MD, MPH	Washington/Harborview Stroke Center	Sleep Health Inequities Disparities in Stroke Risk and Health Outcomes
ANA2024	Orlando, FL	Special Interest Group (SIG)	Headache and Pain	Tuesday, September 17, 2024	Kathleen	Digre	MD, FANA	University of Utah	Clinical Presentation and Pathophysiological Differences of Visual Symptoms
ANA2024	Orlando, FL	Special Interest Group (SIG)	Headache and Pain	Tuesday, September 17, 2024	Catherine	Chong	PhD, FAAN, FANS	Mayo Clinic Arizona	Migraine Pathophysiology: Insights from Functional Imaging
ANA2024	Orlando, FL	Special Interest Group (SIG)	Movement Disorders (NO CME)	Tuesday, September 17, 2024	Nora	Amayave Vanegas	MD	Baylor College of Medicine	Controversies of Spinal Cord Stimulation for Gait Disturbance in Parkinson's Disease
ANA2024	Orlando, FL	Special Interest Group (SIG)	Movement Disorders (NO CME)	Tuesday, September 17, 2024	Roy	Freeman	MD	Beth Israel Deaconess Medical Center	Synuclein Deposition in the Skin - A Sensitive and Specific Diagnostic Biomarker in the Synucleinopathies
ANA2024	Orlando, FL	Special Interest Group (SIG)	Movement Disorders (NO CME)	Tuesday, September 17, 2024	Marta	San Luciano	MD, MS, FAAN	University of California San Francisco	Cerebellar Deep Brain Stimulation in Cerebral Palsy
ANA2024	Orlando, FL	Special Interest Group (SIG)	Closer Look At Focused Ultrasound, Laser Interstitial Thermal Therapy (LITT), And Tumor Treating Fields	Tuesday, September 17, 2024	Eric	Wang	MD, MA, FANA, FAAN	Rhode Island Hospital	Tumor Treating Fields Treatment Device for Glioblastoma
ANA2024	Orlando, FL	Special Interest Group (SIG)	Closer Look At Focused Ultrasound, Laser Interstitial Thermal Therapy (LITT), And Tumor Treating Fields	Tuesday, September 17, 2024	Wael	Assad	MD, PhD	Brown University	Focused US for BBB Disruption
ANA2024	Orlando, FL	Special Interest Group (SIG)	Closer Look At Focused Ultrasound, Laser Interstitial Thermal Therapy (LITT), And Tumor Treating Fields	Tuesday, September 17, 2024	Sujit	Prabhu	MD, FRC(S)(Ed), FAANS	University of Texas MD Anderson Cancer Center	Role of Laser Interstitial Thermal Therapy in Brain Tumors
ANA2024	Orlando, FL	Special Interest Group (SIG)	Neuro-ophthalmology and Neuro-vestibular Disease	Tuesday, September 17, 2024	Geta	Heidary	MD, PhD	Boston Children's Hospital	Chorioid Abnormalities and Visual Outcomes in Children with NF1-Associated Optic Pathway Gliomas
ANA2024	Orlando, FL	Special Interest Group (SIG)	Neuro-ophthalmology and Neuro-vestibular Disease	Tuesday, September 17, 2024	Ali	Tehrani	MD	Johns Hopkins University	Quantifying Induced Nystagmus Using a Smartphone Eye Tracking Application
ANA2024	Orlando, FL	Special Interest Group (SIG)	Neuro-ophthalmology and Neuro-vestibular Disease	Tuesday, September 17, 2024	Eoin	Flanagan	MBBCh	Mayo Clinic, Rochester	Updates on the Diagnostic Criteria for MOGAD
ANA2024	Orlando, FL	Special Interest Group (SIG)	Sleep Disorders and Circadian Rhythms	Tuesday, September 17, 2024	Tiffany	Braley	MD, MS, FANA	University of Michigan	Sleep and Multiple Sclerosis
ANA2024	Orlando, FL	Special Interest Group (SIG)	Sleep Disorders and Circadian Rhythms	Tuesday, September 17, 2024	Devin	Brown	MD, MS, FANA	University of Michigan	OSA and Stroke Prevention
ANA2024	Orlando, FL	Special Interest Group (SIG)	Sleep Disorders and Circadian Rhythms	Tuesday, September 17, 2024	Bryce	Mander	PhD	University of California, Irvine	Sleep Stage Specific Effects of Sleep Apnea on Cerebrovascular Pathology and Memory in Older Adults at Risk for Alzheimer's Disease
ANA2025	Baltimore, MD	Cross-Cutting Special Interest Group (SIG)	ANA-SEQUINS Health Services and Health Opportunities - Innovative Pathways in Neurologic Care: Shaping the Future of Treatment	Sunday, September 14, 2025	Karen	Orjuela	MD, MSCR, MBA, FAAN	The University of Chicago	Innovative Strategies for Neurologic Care
ANA2025	Baltimore, MD	Cross-Cutting Special Interest Group (SIG)	ANA-SEQUINS Health Services and Health Opportunities - Innovative Pathways in Neurologic Care: Shaping the Future of Treatment	Sunday, September 14, 2025	Imama	Naqi	MD, MS	Columbia University	Integrating Team Science and Technology to Optimize Health Behaviors after Stroke
ANA2025	Baltimore, MD	Cross-Cutting Special Interest Group (SIG)	ANA-SEQUINS Health Services and Health Opportunities - Innovative Pathways in Neurologic Care: Shaping the Future of Treatment	Sunday, September 14, 2025	John	Ney	MD, MPH, FAAN	Yale University School of Medicine	Cost and Cost-Effectiveness Analysis in Neurology
ANA2025	Baltimore, MD	Cross-Cutting Special Interest Group (SIG)	ANA-SEQUINS Health Services and Health Opportunities - Innovative Pathways in Neurologic Care: Shaping the Future of Treatment	Sunday, September 14, 2025	Chloe	Hill	MD, MS	University of Michigan	Access to Early Pregnancy Care for Women with Epilepsy
ANA2025	Baltimore, MD	Cross-Cutting Special Interest Group (SIG)	ANA-SEQUINS Health Services and Health Opportunities - Innovative Pathways in Neurologic Care: Shaping the Future of Treatment	Sunday, September 14, 2025	Marilyn	Nolasco	BS	University of North Carolina at Chapel Hill School of Medicine	Risk Factors of Neurocognitive Disorders and Dementia in Older People in Rural Districts of Eastern Uganda
ANA2025	Baltimore, MD	Cross-Cutting Special Interest Group (SIG)	Neurogenetics and Gene Therapy	Sunday, September 14, 2025	Xlima	Ortiz-Gonzalez	MD, PhD	Children's Hospital of Philadelphia	How to Tackle the "VUS"
ANA2025	Baltimore, MD	Cross-Cutting Special Interest Group (SIG)	Neurogenetics and Gene Therapy	Sunday, September 14, 2025	Bryan	Traynor	MD, PhD, FANA	National Institute on Aging	The X-Files: Decoding Chromosome X in Neurodegenerative Disease
ANA2025	Baltimore, MD	Cross-Cutting Special Interest Group (SIG)	Neurogenetics and Gene Therapy	Sunday, September 14, 2025	Davut	Pehlivan	MD	Baylor College of Medicine	Exploring the Genomic Landscape of MECP2 Duplication Syndrome: Correlating Phenotypic Traits and Guiding Therapeutic Strategies
ANA2025	Baltimore, MD	Cross-Cutting Special Interest Group (SIG)	Neurogenetics and Gene Therapy	Sunday, September 14, 2025	Samuel	Carrell	MD, PhD	Virginia Commonwealth University	Genetic Therapies for Myotonic Dystrophy
ANA2025	Baltimore, MD	Cross-Cutting Special Interest Group (SIG)	Neurorecovery and Neuroplasticity: Cognitive Function	Sunday, September 14, 2025	A.M.	Barrett	MD, FANA, FAAN, FASMR	UMass Chan Medical School	Spatial Cognitive Neuroscience and Spatial Neglect Rehabilitation
ANA2025	Baltimore, MD	Cross-Cutting Special Interest Group (SIG)	Neurorecovery and Neuroplasticity: Cognitive Function	Sunday, September 14, 2025	Roy	Hamilton	MD, MS, FAAN, FANA	University of Pennsylvania	Wired for Words: Using Noninvasive Brain Stimulation to Explore the Language System and Enhance Aphasia Recovery
ANA2025	Baltimore, MD	Cross-Cutting Special Interest Group (SIG)	Neurorecovery and Neuroplasticity: Cognitive Function	Sunday, September 14, 2025	Angie	Hillis	MD, MA, FANA	Johns Hopkins University	Treatments of Aphasia Based on Individual Cognitive and Neural Mechanisms of Deficits
ANA2025	Baltimore, MD	Cross-Cutting Special Interest Group (SIG)	Neurorecovery and Neuroplasticity: Cognitive Function	Sunday, September 14, 2025	Hee Ra	Jung	BA	Washington University in St. Louis School of Medicine	Lemborexant, A Dual Orexin Receptor Antagonist, Reduces Infarct Volume, Restores Altered Sleep, and Improves Behavioral Deficits After Stroke
ANA2025	Baltimore, MD	Cross-Cutting Special Interest Group (SIG)	Neuroinflammation and Neuroinfection	Sunday, September 14, 2025	Prashanth	Ramachandran	MBBS, PhD	The Peter Doherty Institute for Infection and Immunity	The Host Immune Response in TB Meningitis and Other CNS Infections
ANA2025	Baltimore, MD	Cross-Cutting Special Interest Group (SIG)	Neuroinflammation and Neuroinfection	Sunday, September 14, 2025	Peter	Williamson	MD, PhD	National Institute of Allergy and Infectious Diseases	Immune Modulation of Cryptococcal Inflammatory Syndromes
ANA2025	Baltimore, MD	Cross-Cutting Special Interest Group (SIG)	Neuroinflammation and Neuroinfection	Sunday, September 14, 2025	Maura	Marion	MD	National Institute of Allergy and Infectious Diseases	Preempting Paradoxical Reactions
ANA2025	Baltimore, MD	Cross-Cutting Special Interest Group (SIG)	Neuroinflammation and Neuroinfection	Sunday, September 14, 2025	Ronald	Ellis	MD, PhD, FANA	University of California, San Diego	Compartmentalized Biomarker Correlations in HIV: Plasma-CSF Relationships Vary by BBB Permeability and Viral Suppression

ANA2025	Baltimore, MD	Cross-Cutting Special Interest Group (SIG)	Neuroinflammation and Neuroinfection	Sunday, September 14, 2025	Michael Gilligan	MBBS, BAO	Mayo Clinic, Rochester, MN	Unclassified Neural IgGs: Immune Profiling Algorithm to Characterize Autoimmune Synaptic Biomarkers	
ANA2025	Baltimore, MD	Cross-Cutting Special Interest Group (SIG)	Neurodegeneration and Cell Death	Sunday, September 14, 2025	Michael Ward	MD, PhD	National Institute of Neurological Disorders and Stroke	The Hidden Biology of Neuronal Lysosomes in Health and Disease	
ANA2025	Baltimore, MD	Cross-Cutting Special Interest Group (SIG)	Neurodegeneration and Cell Death	Sunday, September 14, 2025	Nilüfer Etekin-Taner	MD, PhD, FANA	Mayo Clinic, Jacksonville, FL	Towards Precision Medicine for Neurodegenerative Diseases	
ANA2025	Baltimore, MD	Cross-Cutting Special Interest Group (SIG)	Neurodegeneration and Cell Death	Sunday, September 14, 2025	Payam Mohassel	MD, FANA	Johns Hopkins University	Serine Palmitoyltransferase (SPT)-related Neurodegenerative and Neurodevelopmental Disorders	
ANA2025	Baltimore, MD	Cross-Cutting Special Interest Group (SIG)	Neurodegeneration and Cell Death	Sunday, September 14, 2025	Georgia Mirakaki	MSc, PhD	Northwestern University	Commander Complex Regulates Lysosomal Function and is Implicated in Parkinson's Disease Risk	
ANA2025	Baltimore, MD	Cross-Cutting Special Interest Group (SIG)	Neurodegeneration and Cell Death	Sunday, September 14, 2025	Biswarathan Ramani	MD, PhD	University of California, San Francisco	CRISPR-Based Screens to Uncover Chaperone Modifiers of Polyglutamine Protein Aggregation	
ANA2025	Baltimore, MD	Cross-Cutting Special Interest Group (SIG)	Neurodevelopmental Disorders from Conception and Beyond	Sunday, September 14, 2025	Hanna Stevens	MD, PhD	University of Iowa Carver College of Medicine	Modeling Placental Growth Factor Contributions to Neurodevelopmental Disorders	
ANA2025	Baltimore, MD	Cross-Cutting Special Interest Group (SIG)	Neurodevelopmental Disorders from Conception and Beyond	Sunday, September 14, 2025	Yi Li	MD, PhD	Stanford University	Impact of Maternal Genetic Variants on their Children's Neurodevelopmental Outcomes After Fetal Antiepileptic Medication Exposure	
ANA2025	Baltimore, MD	Cross-Cutting Special Interest Group (SIG)	Neurodevelopmental Disorders from Conception and Beyond	Sunday, September 14, 2025	Catherine Limperopoulos	PhD	Children's National Hospital	Harnessing the Power of Fetal MRI in Studying the Prenatal Origins of Neurodevelopmental Disorders	
ANA2025	Baltimore, MD	Cross-Cutting Special Interest Group (SIG)	Neurodevelopmental Disorders from Conception and Beyond	Sunday, September 14, 2025	Diane Shao	MD, PhD	Boston Children's Hospital	Somatic Mutations in Focal Epilepsy Identified Through Re-Analysis of Epilepsy Consortium Exome Data	
ANA2025	Baltimore, MD	Traditional Special Interest Group (SIG)	Cerebrovascular Disease	Monday, September 15, 2025	Seemant Chaturvedi	MD, FANA	University of Maryland School of Medicine	Management of Symptomatic Carotid Artery Stenosis: From Dogma to Data	
ANA2025	Baltimore, MD	Traditional Special Interest Group (SIG)	Cerebrovascular Disease	Monday, September 15, 2025	Daniel Woo	MD	University of Buffalo	Genetic and Environmental Risk Factors for Intracerebral Hemorrhage	
ANA2025	Baltimore, MD	Traditional Special Interest Group (SIG)	Cerebrovascular Disease	Monday, September 15, 2025	Kathryn Renore	MD, MPH	Brigham and Women's Hospital, Harvard Medical School	GLP-1 Agonists - A Promising Drug in Stroke Prevention	
ANA2025	Baltimore, MD	Traditional Special Interest Group (SIG)	Cerebrovascular Disease	Monday, September 15, 2025	Diya Gandhi	RA	Yale School of Medicine	Acute Stroke Reperfusion Therapies for Down Syndrome Patients: Nationwide Utilization Rates and Hospitalization Outcomes	
ANA2025	Baltimore, MD	Traditional Special Interest Group (SIG)	Cerebrovascular Disease	Monday, September 15, 2025	Priscilla Abrari	MD, MWACP	The Kenko Analyte Teaching Hospital (KATH), Ghana	Neuregulin 1 as a Predictor of Severity and Outcome among Patients with Acute Intracerebral Hemorrhage in a Ghanaian Hospital	
ANA2025	Baltimore, MD	Traditional Special Interest Group (SIG)	Cerebrovascular Disease	Monday, September 15, 2025	Mohamed Ocheim	MD	University of Pittsburgh School of Medicine	Intravenous Thrombolysis in Minor Acute Ischemic Stroke: A Comprehensive Meta-Analysis of Randomized Controlled Trials	
ANA2025	Baltimore, MD	Traditional Special Interest Group (SIG)	What's New in Neuro-ophthalmology and Neurovestibular Disease	Monday, September 15, 2025	Kemar Green	DO, FANA	Johns Hopkins University	Artificial Intelligence-Based Ocular Motor Biomarkers of Neurologic Disease	
ANA2025	Baltimore, MD	Traditional Special Interest Group (SIG)	What's New in Neuro-ophthalmology and Neurovestibular Disease	Monday, September 15, 2025	Melinda Chang	MD	Children's Hospital Los Angeles, University of Southern California	Generative AI in Evaluation of Central Vision Loss in Children	
ANA2025	Baltimore, MD	Traditional Special Interest Group (SIG)	What's New in Neuro-ophthalmology and Neurovestibular Disease	Monday, September 15, 2025	Elias Sofirchos	MD	Johns Hopkins University	Optic Nerve and OCT in the Diagnosis of MS	
ANA2025	Baltimore, MD	Traditional Special Interest Group (SIG)	What's New in Neuro-ophthalmology and Neurovestibular Disease	Monday, September 15, 2025	Andrew Sas	MD, PhD	Ohio State University	Age Related Changes Impair Neurotrophil Plasticity and Regeneration after Optic Nerve Trauma	
ANA2025	Baltimore, MD	Traditional Special Interest Group (SIG)	What's New in Neuro-ophthalmology and Neurovestibular Disease	Monday, September 15, 2025	Ali Rafati	MD, MPH	Johns Hopkins University	The Vestibular Patient Journey: Insights from Vestibular Disorders Association (Ve-DA) Patient Registry	
ANA2025	Baltimore, MD	Traditional Special Interest Group (SIG)	Headache & Pain	Monday, September 15, 2025	QiLiang Chen	MD, PhD	VA Palo Alto Healthcare System, Stanford University	Neuromodulation Targets for Headache Disorders	
ANA2025	Baltimore, MD	Traditional Special Interest Group (SIG)	Headache & Pain	Monday, September 15, 2025	Joanna Forng-isiaryawongse	MD, FAAN	University of Pittsburgh	Sleep and Pain: Breaking the Vicious Cycle	
ANA2025	Baltimore, MD	Traditional Special Interest Group (SIG)	Headache & Pain	Monday, September 15, 2025	Shae Datta	MD	NYU Langone Health	Integrative Approach Managing Women's Migraine	
ANA2025	Baltimore, MD	Traditional Special Interest Group (SIG)	Headache & Pain	Monday, September 15, 2025	Christopher Oakley	MD	Johns Hopkins University	Updates in Pediatric Headache	
ANA2025	Baltimore, MD	Traditional Special Interest Group (SIG)	Headache & Pain	Monday, September 15, 2025	Nina Riggins	MD, PhD, FANA, FAAN, FAHS	VA Palo Alto	From Pediatric to Adult Headache Management	
ANA2025	Baltimore, MD	Traditional Special Interest Group (SIG)	Movement Disorders (Non CME)	Monday, September 15, 2025	Bhooma Aravamudan	MD, DPhil	Washington University in St. Louis	Chronic Striatal Cholinergic Interneuron Excitation Causes Central Palsy-Related Dyspraxic Behavior in Mice	
ANA2025	Baltimore, MD	Traditional Special Interest Group (SIG)	Movement Disorders (Non CME)	Monday, September 15, 2025	Sheng-Han Kuo	MD, FANA	Columbia University	Troliuzole in Focus: Transforming the Landscape of SCA Therapy	
ANA2025	Baltimore, MD	Traditional Special Interest Group (SIG)	Movement Disorders (Non CME)	Monday, September 15, 2025	Todd Herington	MD, PhD	Massachusetts General Hospital, Harvard Medical School	Adaptive Deep Brain Stimulation in Parkinson's Disease	
ANA2025	Baltimore, MD	Traditional Special Interest Group (SIG)	Movement Disorders (Non CME)	Monday, September 15, 2025	Matthew Lorincz	MD, PhD	University of Michigan	Long-term Sustained Improvement of Neurological Symptoms in Wilson Disease Patients on Troliuzole Choline	
ANA2025	Baltimore, MD	Traditional Special Interest Group (SIG)	Movement Disorders (Non CME)	Monday, September 15, 2025	Yagiz Altun	MD, PhD	Albert Einstein College of Medicine	Cortical Interneuron Imbalance in Huntington's Disease: Implications for Therapeutic Strategies to Correct Developmental Critical Period and Circuit Disruptions	
ANA2025	Baltimore, MD	Traditional Special Interest Group (SIG)	Neuro-oncology: Immunotherapy for Glioblastoma	Monday, September 15, 2025	Allison Martin	MD	Albert Einstein College of Medicine	Revisiting Immune Checkpoints in Medulloblastoma	
ANA2025	Baltimore, MD	Traditional Special Interest Group (SIG)	Neuro-oncology: Immunotherapy for Glioblastoma	Monday, September 15, 2025	Adilia Hornigo	MD, PhD, FANA	Albert Einstein College of Medicine	Reprogramming the Glioblastoma Microenvironment: From Immune Suppression to Immune Activation	
ANA2025	Baltimore, MD	Traditional Special Interest Group (SIG)	Neuro-oncology: Immunotherapy for Glioblastoma	Monday, September 15, 2025	Rimas Lukas	MD, FANA	Northwestern University	STING: A Pathway Forward for Immunotherapy in Gliomas	
ANA2025	Baltimore, MD	Traditional Special Interest Group (SIG)	Neuro-oncology: Immunotherapy for Glioblastoma	Monday, September 15, 2025	Francesca Rohell	ScM, BA	of Medicine at The University of Vermont	Diagnostic Considerations for Neurolymphomatosis: A Natural History Analysis	
ANA2025	Baltimore, MD	Traditional Special Interest Group (SIG)	Sleep Disorders and Circadian Rhythms	Monday, September 15, 2025	Albert A. (Gus) Davis	MD, PhD	Washington University in St. Louis	Observations from the North American Prodromal Synucleinopathy (NAPS) Consortium	
ANA2025	Baltimore, MD	Traditional Special Interest Group (SIG)	Sleep Disorders and Circadian Rhythms	Monday, September 15, 2025	Gordon F. Buchanan	MD, PhD, FAES, FANA	University of Iowa Carver College of Medicine	Sleep and Timing in Seizures, Epilepsy, and SUDEP	
ANA2025	Baltimore, MD	Traditional Special Interest Group (SIG)	Sleep Disorders and Circadian Rhythms	Monday, September 15, 2025	Sabra Abbott	MD, PhD, FANA	Northwestern University	Circadian Medicine
